RE: Duster and Freezer

To whom it may concern:

We are excited to announce that Chemtronics duster and freeze spray products will now have a lower global warming potential thanks to a slight formulation change, the addition of a small amount of HFC-152a. The product will continue to have the same exceptional performance and safety.

You can identify the correct SDS by the reference number, which is included in the document name and in section 1. The lot # printed on the bottom of the aerosol can will either match or be higher.

Marked 22075 or higher: part #

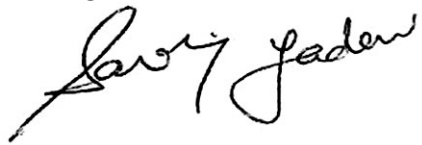

- Duster..... ES1617
- Ultrajet Duster ES1020

Marked 22346 or higher:

- Ultrajet 70 Duster ES1015
- Duster..... ES1017
- Ultrajet Duster Refill ES1020R
- Ultrajet Duster System..... ES1020K
- Ultrajet All-Way Duster ES1620
- Freez-It ES1050, ES1550
- Freeze Spray..... ES1052

Please feel free to contact me if you have any questions or concerns.
